WHY MASTERS IN BUSINESS ADMINISTRATION

A Master of Science in Business Administration program provides students with a broad range of business knowledge and skills. This program is designed to prepare students for leadership roles in business and related fields, and provides an in-depth understanding of management principles and practices.

The curriculum of Master of Science in Business Administration program includes courses in finance, marketing, accounting, operations management, and strategic management. In addition to classroom learning, students in this program are required to complete a project and internship, which provides hands-on experience in business management. This practical experience is essential for preparing students for the real-world challenges of the business world.

Upon completion of an MBA program, graduates are prepared for a wide range of career opportunities, including positions in management, consulting, finance, marketing, and entrepreneurship. They may also choose to pursue careers in related fields such as healthcare management, nonprofit management, or government.

Overall, a Master of Science in Business Administration program provides students with the knowledge and skills they need to succeed in the business world, and prepares them for a rewarding career in a variety of industries. Whether you're interested in starting your own business, advancing your career in management, or pursuing a career in consulting, an MBA can help you achieve your goals.

TARGET SKILLS

Upon Completion of a Master of Science in Business Administration students will:

Develop an understanding of key concepts and contemporary management theory and practice in the functional areas of business, including accounting, finance, information systems, marketing, operations management, organizational behavior, and research methods.

Have a global perspective that is required to lead and manage businesses in a diverse and changing environment.

Have strong appreciation for and ability to apply evidence-based approaches in making decisions.

Possess a strategic mindset and frameworks to recognize and respond effectively to internal and external challenges and opportunities.

Demonstrate the use of cross functional approaches to solving organizational problems.

Demonstrate disciplined managerial skills, including analysis, planning, and implementation, while considering the impacts of technology, globalization, emerging markets, and diversity in organizations.

Build a foundation for constructive assessment and exercise of leadership, decision-making, team management, power, and communication skills.

Aspire and possess the necessary frameworks to be ethical and socially responsible managers and leaders.

HOW TO APPLY

Master of Science Program (National Students)

The first step to admission in a Master's program at CIT is to complete the application form, which is available at www.cit.edu.al. An Admissions Officer will then contact you to provide further details about the pre-registration process and the required documents for this stage.

Admission Criteria

The Canadian Institute of Technology requires all candidates to fill out an application form in order to be accepted in one of the Master of Science programs. This form can be filled out on-line or in the premises of the Admission Office.

Students will be eligible for admission to one of the Master's programs if they meet the following criteria:

- Have successfully completed their studies in the Republic of Albania and obtained the relevant diploma, from a first study cycle "Bachelor" program or an integrated second study cycle program, accredited at the moment of the student graduation;
- Have an average GPA, preferably, no lower than 7.5;
- Demonstrate English language proficiency at the B1 level or higher.

Applications are open throughout the year, and registration takes place during September and October.

Master of Science Program (International Students)

Admission Criteria

The Canadian Institute of Technology requires all international candidates to fill out an application form in order to be accepted in one of the Master of Science programs. An Admissions Officer will then contact you to provide further details about the pre-registration process and the required documents for this stage.

International students will be eligible for admission to one of the Master's programs if they meet the following criteria:

- Have successfully completed their studies and obtained the relevant 'Bachelor' program diploma from an accredited program at the time of their graduation;
- Have an average GPA, preferably, no lower than 7.5;
- Demonstrate English language proficiency at the B1 level or higher.

Applications are open throughout the year, and registration takes place during September and October.

International students are required to apply to the Albanian Education Service Center (QSHA) for the recognition of their diplomas.
