WHY MASTERS IN FINANCE AND ACCOUNTING

Accounting and Auditing Profile

A Master's degree in Finance and Accounting with a profile in Accounting and Auditing is a graduate-level program that prepares students for careers in accounting and auditing, as well as related fields such as financial management, taxation, and consulting. This program provides students with advanced knowledge and skills in accounting and auditing, which are essential for success in today's complex business environment.

The curriculum of Finance and Accounting with a profile in Accounting and Auditing Master's degree program includes courses in financial accounting, managerial accounting, auditing, taxation, and accounting information systems. Students also have the opportunity to specialize in areas such as forensic accounting, international accounting, or accounting analytics. In addition to classroom learning, students in this program are typically required to complete a capstone project or internship, which provides hands-on experience in accounting and auditing. This practical experience is essential for preparing students for the real-world challenges of the accounting profession.

Upon completion of a Master's degree in Accounting and Auditing, graduates are prepared for a wide range of career opportunities, including positions in public accounting, corporate accounting, government accounting, and consulting. They may also choose to pursue careers in related fields such as financial management, investment analysis, or risk management.

Overall, a Master's degree in Accounting and Auditing provides students with the knowledge and skills they need to succeed in the accounting profession, and prepares them for a rewarding career in a growing and dynamic field.

HOW TO APPLY

Master of Science Program (National Students)

The first step to admission in a Master's program at CIT is to complete the application form, which is available at www.cit.edu.al. An Admissions Officer will then contact you to provide further details about the pre-registration process and the required documents for this stage.

Admission Criteria

The Canadian Institute of Technology requires all candidates to fill out an application form in order to be accepted in one of the Master of Science programs. This form can be filled out on-line or in the premises of the Admission Office.

Students will be eligible for admission to one of the Master's programs if they meet the following criteria:

- Have successfully completed their studies in the Republic of Albania and obtained the relevant diploma, from a first study cycle "Bachelor" program or an integrated second study cycle program, accredited at the moment of the student graduation;
- Have an average GPA, preferably, no lower than 7.5;
- Demonstrate English language proficiency at the B1 level or higher.

Applications are open throughout the year, and registration takes place during September and October.

Master of Science Program (International Students)

Admission Criteria

The Canadian Institute of Technology requires all international candidates to fill out an application form in order to be accepted in one of the Master of Science programs. An Admissions Officer will then contact you to provide further details about the pre-registration process and the required documents for this stage.

International students will be eligible for admission to one of the Master's programs if they meet the following criteria:

- Have successfully completed their studies and obtained the relevant 'Bachelor' program diploma from an accredited program at the time of their graduation;
- Have an average GPA, preferably, no lower than 7.5;
- Demonstrate English language proficiency at the B1 level or higher.

Applications are open throughout the year, and registration takes place during September and October.

International students are required to apply to the Albanian Education Service Center (QSHA) for the recognition of their diplomas.
